<b>HEALTH INDUSTRY</b>					
1.	<b>Pharmapolis Innovative Pharmaceutical Cluster</b> 	<p>The establishment of the Pharmapolis Innovative Pharmaceutical Cluster represents the general intensions of the economic sectors dominantly present in Debrecen and the stakeholders of the pharmaceutical industry as well as the City Council of Debrecen of County Rank, the Chamber of Commerce and Industry of Hajdú-Bihar County and the University of Debrecen on the basis of which they wish to cooperate on the promotion of industrial networking supported by the makings of the region. The name of 'Pharmapolis' has been clearly apparent in the collaborations between the city and the university since 2005 when the City Council of Debrecen and the University of Debrecen together with several small and medium enterprises brought about the Pharmapolis Debrecen Ltd. This economic company together with the Richter Gedeon Pharmaceutical Company, which is the most important pharmaceutical stakeholder of the cluster, carry out closely aligned R+D activities in the field –primarily – clinical researches. The name of 'Pharmapolis' is also used to refer to the Debrecen Pole Program. The objective of the Pharmapolis Cluster is versatile; it wishes to strengthen the less developed elements in the innovative chain of the Hungarian pharmaceutical industry as it is required by the export interests of economic stakeholders and on the other hand, it also wishes to contribute to the improvement of European innovative capacities.</p>	<p>The Pharmapolis Innovative Pharmaceutical Cluster wish to reach their goals by adopting the pharmaceutically-specified elements of the European Technological Platforms.</p>	Yes	<a href="http://www.pharmapolis-hungary.eu">www.pharmapolis-hungary.eu</a>

33.	<b>QueenB</b> 	<p>The Hungarian company producing natural nourishment 100 % produced by bees, that does not contain additives, is looking for trade intermediary services. The company produces pure organic honey (<a href="http://www.queenb.eu/">http://www.queenb.eu/</a>), and they would like to know more information about the export conditions, and opportunities. The centre of their bee-keeping site is in the middle of a more than 1000 hectare big acacia forest. Therefore they can assure that they produce a 100 % pure honey free of environmental deflecting force. Besides this, they migrate to rapeseed, sunflower, wild-tobacco and on associations to amor-acacia cultures. The company has been certificated ORGANIC, therefore the honey produced by their bees from acacia, wild tobacco, amor-acacia and sprong –mix has also got an Organic certificate. Currently they farm with 450 bee families.</p> <p>QueenB keeps the Honey as pure as possible, doesn't use any food industrial profanation of it, and doesn't weaken the honey for profit, or to hit better price. QueenB Honey Types contain no Iso-Sugar, and no heated granulated sugar.</p> <p>In total the Hungarian laws raise bigger expectations for honey, than the International laws. These expectations guarantee the significant quality of the Hungarian honey in the International field. A national survey is being created recently. The Hungarian Apiary Alliance collects with this survey three years' data, which can confirm the position of the Hungarian honey.</p>	The company would like to export its products.	No	<a href="http://www.queenb.eu">www.queenb.eu</a>
